COMPASS Public Access and Streamlining Registration

Nancy Insuik and Brenda Lantz

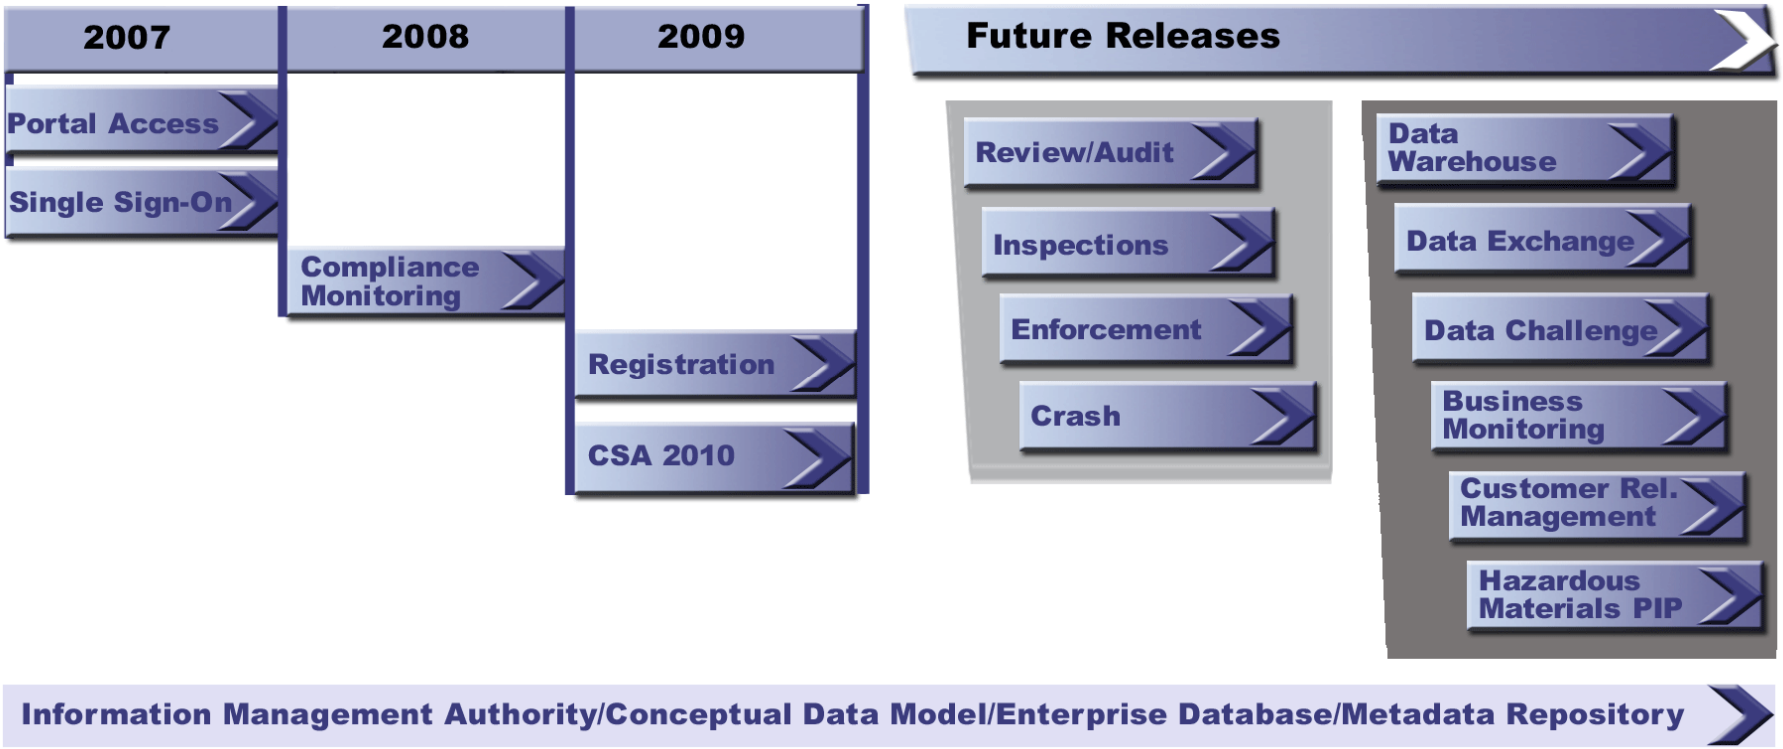
Agenda

- COMPASS Overview
  - COMPASS Objectives
  - COMPASS Roadmap
  - COMPASS Pilot
  - COMPASS Release 1
- COMPASS Public Access and Streamlining Registration
  - Scope - Public interaction with the FMCSA Portal
  - Scope - Redesigning the registration process
  - Identifying public sector stakeholders—existing carriers, potential carriers, industry customers, interested parties, etc.
  - Gathering ideas on how to better communicate with all public sector stakeholders
  - Brainstorming what should be presented to the public sector stakeholders
  - Implementation strategies

COMPASS Objectives

- **Improve data accessibility** through simple sign-on and easier navigation
- **Improve data consistency** through database consolidation and integration
- **Simplify data capturing** and information reporting
- **Increase productivity and efficiency** by better integrating our information technology with our business processes
- **Enable better policy and program decisions** through improved data quality
- **Reduce costs** for operations and maintenance through consolidation and implementing industry best practices

COMPASS Roadmap



Pilot Scope

- Federal Program Managers
  - Select Carrier for Compliance Review and assign Safety Investigators to perform the review
  - Access MCMIS legacy system without additional login to perform other job functions
- Registered Carriers
  - View company information specific to the Carrier including crashes, inspections, reviews and closed enforcement cases
  - Access DataQs legacy system without additional login to challenge information

Pilot Demonstration

- Federal Program Managers
- Registered Carriers

Release 1 Scope

- Select Carrier for Review or Safety Audit and assign Safety Investigators to perform the review or audit
- View Assignments
- View Company information
- Print or download Company Safety Profiles on an as needed basis at no charge
- Automated accounts management and role assignment
- Automated password reset and account unlock
- Single Sign-on to MCMIS, EMIS and L&I
- Context sensitive online help
- Online access to training materials
- Online survey and user feedback tools

Release 1 Functionality – Accounts Management

- Accounts Management
  - Automates the registration process
  - Automates password reset and account unlock requests
  - Registers users for both COMPASS and legacy systems
  - Everyone is to reregister through COMPASS
  - Organization Coordinator is the internal Approver
  - Authorized User is the registered public Approver
- Roles
  - By functionality not title
  - Organization Coordinators / Authorized Users are able to assign and remove roles via the portal

COMPASS Public Access and Streamlining Registration

- Public Access release is directed towards the general public who has an interest in obtaining information about companies
  - Filter screens
  - Query Capability
- Streamlining Registration includes:
  - Any changes to the registration and maintenance process, and
  - Leverages existing information to allow for enhanced awareness of both the New Entrant program and a Carrier's requirements pertaining to the program
